

A Glorious Civilization, Part 2

When working with a class, I advise setting up a point system. It would help if you thought about charging parents a fee for the class, and those fees go toward the kids' prizes for the top three who earn the most points. You can also use this as a ministry opportunity and absorb the costs. An idea of a reward prize could be a book of interest in the subjects you are learning together to start their library with a gift card.

The point system is a powerful tool for fostering learning and goal orientation. I've observed students becoming more engaged, taking notes, and memorizing facts. This system encourages them to set goals and work towards achieving them.

After each video, I questioned them about what they had learned the previous day. At the end of each video, I asked what they had learned for points.

DiggingIn2Truth encourages the use of the King James Bible because there are changes made to the modern versions. Try using a parallel Bible to see the differences yourself.

Review:

- What was found at the bottom of an Indian mound in Texas? **Roman coins**
- What coin was found in Alabama? **A Coin from Sicily dating back to 490 B.C**
- What was found 25 feet below the surface in British Columbia in 1882, older than 2,000 years? **Chinese coins**
- Where was the coin found in Australia in 1910? **Egypt during the reign of Ptolemy IV, 200 B.C**
- Where was the pottery from unearthed in Mexico? **Rome, 2nd century**
- What was the stone called that describes the Norsemen in the interior of North America? **The Kensington Stone**
- What fruit is depicted in a fresco in Pompeii? **A pineapple**
- Who belonged to the ancient ship found in Texas? **The Romans**
